Professional Summary

I am a Bachelor of Information Technology student with a diverse background in software development and professional communication. My experience spans frontend development, UI/UX design, and master-level event hosting. I specialize in bridging the gap between technical infrastructure and user-centric design, supported by a strong foundation in collaborative software engineering and quality assurance.

Technical Projects

Everest Taekwondo School Management System (USA)

Frontend Developer & QA

- Collaborated on the architectural design of a multi-role system for students, parents, and coaches.
- Developed and optimized the frontend interface to ensure seamless user navigation and responsiveness.
- Assisted in scalable database design for attendance tracking, belt rankings, and automated billing.
- Executed comprehensive system testing to identify bugs and ensure high-performance reliability.

IOFTC Nepal Official Website

Web Developer

- Developed a high-performance platform for the International Open Friendship Taekwondo Championships.
- Integrated global user registration modules and dynamic event update features.

Gas Detection & Alarming System

Software Developer

- Built a real-time safety monitoring application featuring automated alerting mechanisms.

Perunce Bakery Shop (E-commerce)

Frontend Developer

- Designed and deployed a responsive web interface for managing local inventory and digital sales.

Communication & Leadership

Host & Professional Presenter

- Acted as Master of Ceremony for high-profile school and college events, including Silver Jubilee celebrations and Parents' Day programs.
- Delivered motivational speeches and represented the student body in official college forums.
- Volunteered as college staff and event coordinator for annual sports competitions.

Education & Training

Bachelor of Information Technology (BIT)
Himalayan Whitehouse International College | 2022 – 2026 (Ongoing)

+2 Science (Physics)
KIST College & S.S | 2020 – 2022

Professional Training

- Certificate of completion in Graphic Designing with Photoshop - Great Learning Academy.
- 3-month Professional Web Development Internship Program.

Awards & Honors

Best Anchor - Awarded for excellence in event hosting and professional public speaking.

Design Kathmandu Contest Award - Recognition from the Nepal Academy of Science & Technology (NAST).

3rd Position (National) - Nationwide Poetry Competition.

Winner (Sports) - Recognized in Cricket, Futsal, and Football tournaments.
